There is no minimum number of common shares that must be sold by us for the offering to proceed, and we will retain the proceeds from the sale of any of the offered common shares. The amount raised may be minimal and there is no assurance that we will be able to raise sufficient amount to cover our expenses and may not even cover the costs of the offering.

The shares are being offered at a fixed price of \$0.02 per share for a period of one year from the effective date of this prospectus. The offering shall terminate on the earlier of (i) the date when the sale of all 5,000,000 shares is completed, (ii) when the Board of Directors decides that it is in the best interest of the Company to terminate the offering prior the completion of the sale of all 5,000,000 shares registered under the Registration Statement of which this Prospectus is part or (iii) one year after the effective date of this prospectus. The offering will not be extended beyond one year.

We are an "emerging growth company" as defined in the Jumpstart Our Business Startups Act ("JOBS Act"). We will be subject to limited reporting obligations as an emerging growth company and will be subject to limited reporting obligations as mentioned in our risk factors on page 5.

Marika Inc. is not a blank check company and it does not have any intention to engage in a business combination.

Marika Inc. is a development stage company and currently has limited operations. Any investment in the shares offered herein involves a high degree of risk. You should only purchase common shares if you can afford a loss of your investment. Our independent registered public accountant has issued an audit opinion which includes a statement expressing substantial doubt as to our ability to continue as a going concern.

There is no market for our securities. Our common stock is presently not traded on any market or securities exchange and we have not applied for listing or quotation on any public market.

We are considered a "shell company" under applicable securities rules and subject to additional regulatory requirements as a result, including the inability of our shareholders to sell our shares in reliance on Rule 144 promulgated pursuant to the Securities Act of 1933, as well as our inability to register our securities on Form S-8 (an abbreviated registration process). Accordingly, investors should consider our shares to be significantly risky and illiquid investments.

Consider carefully the risk factors beginning on page 5 in this prospectus.

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

RISK FACTORS

AN INVESTMENT IN OUR COMMON STOCK INVOLVES A HIGH DEGREE OF RISK. YOU SHOULD CAREFULLY CONSIDER THE RISKS DESCRIBED BELOW AND THE OTHER INFORMATION IN THIS PROSPECTUS BEFORE INVESTING IN OUR COMMON STOCK. IF ANY OF THE FOLLOWING RISKS OCCUR, OUR BUSINESS, OPERATING RESULTS AND FINANCIAL CONDITION COULD BE SERIOUSLY HARMED. THE TRADING PRICE OF OUR COMMON STOCK, WHEN AND IF WE TRADE AT A LATER DATE, COULD DECLINE DUE TO ANY OF THESE RISKS, AND YOU MAY LOSE ALL OR PART OF YOUR INVESTMENT.

RISKS ASSOCIATED WITH OUR BUSINESS

WE ARE A DEVELOPMENT STAGE COMPANY AND HAVE MINIMUM OPERATIONS. WE EXPECT TO INCUR OPERATING LOSSES FOR THE FORESEEABLE FUTURE.

We were incorporated on May 24, 2013 and, to the date, have been involved primarily in organizational activities. We have commenced minimum business operations. Further, we have not yet fully developed our business plan, or our management team, nor have we targeted or assembled any real or intangible property rights. Accordingly, we have no way to evaluate the likelihood that our business will be successful.

We have not earned any revenues as of the date of this prospectus. Potential investors should be aware of the difficulties normally encountered by new internet sales companies and the high rate of failure of such enterprises. The likelihood of success must be considered in light of the problems, expenses, difficulties, complications and delays encountered in connection with the operations that we plan to undertake.

These potential problems include, but are not limited to, unanticipated problems relating to the ability to generate sufficient cash flow to operate our business, and additional costs and expenses that may exceed current estimates.

We anticipate that we will incur increased operating expenses without realizing any revenues. We expect to incur significant losses into the foreseeable future. We recognize that if the effectiveness of our business plan is not forthcoming, we will not be able to continue business operations. There is no history upon which to base any assumption as to the likelihood that we will prove successful, and it is doubtful that we will generate any operating revenues or ever achieve profitable operations. If we are unsuccessful in addressing these risks, our business will most likely fail. on our ability to raise financing. As a result, there is substantial doubt about our ability to continue as a going concern.

OUR FUTURE IS DEPENDENT UPON OUR ABILITY TO OBTAIN FINANCING AND UPON FUTURE PROFITABLE OPERATION.

We have accrued net losses of \$274 for the period from our inception on May 24, 2013 through June 31, 2013, and have no revenues to date. Our future is dependent upon our ability to obtain financing and upon future profitable operation. Further, the finances required to fully develop our plan cannot be predicted with any certainty and may exceed any estimates we set forth. These factors raise substantial doubt that we will be able to continue as a going concern. Our independent registered public accountant, has expressed substantial doubt about our ability to continue as a going concern. This opinion could materially limit our ability to raise funds. If we fail to raise sufficient capital, we will not be able to complete our business plan. As a result we may have to liquidate our business and you may lose your investment. You should consider our independent registered public accountant's comments when determining if an investment in Marika Inc. is suitable.

We will require a minimum funding of approximately \$25,000 to conduct our proposed operations for a minimum period of one year including costs associated with maintaining our reporting status with the SEC.

If we experience a shortage of funds prior to funding during the next 12 months, we may utilize funds from Aleksandrs Sviks , our sole officer and director, who has informally agreed to advance funds to allow us to pay for professional fees, including fees payable in connection with the filing of this registration statement and operation expenses, however he has no formal commitment, arrangement or legal obligation to advance or loan funds to the company. We will require the funds from this offering to proceed.

If we are successful in raising the funds from this offering, we plan to commence activities to raise the funds required for the development program. We cannot provide investors with any assurance that we will be able to raise sufficient funds to proceed with any work or activities of the development program.

BECAUSE WE ARE SMALL AND DO NOT HAVE MUCH CAPITAL, OUR MARKETING CAMPAIGN MAY NOT BE ENOUGH TO ATTRACT SUFFICIENT CLIENTS TO OPERATE PROFITABLY. IF WE DO NOT MAKE A PROFIT, WE WILL SUSPEND OR CEASE OPERATIONS.

Due to the fact we are small and do not have much capital, we must limit our marketing activities and may not be able to make our services known to potential customers. Because we will be limiting our marketing activities, we may not be able to attract enough customers to operate profitably. If we cannot operate profitably, we may have to suspend or cease operations.

WE HAVE NO TRACK RECORD THAT WOULD PROVIDE A BASIS FOR ASSESSING OUR ABILITY TO CONDUCT SUCCESSFUL BUSINESS ACTIVITIES. WE MAY NOT BE SUCCESSFUL IN CARRYING OUT OUR BUSINESS OBJECTIVES.

The revenue and income potential of our proposed business and operations are unproven as the lack of operating history makes it difficult to evaluate the future prospects of our business. There is nothing at this time on which to base an assumption that our business operations will prove to be successful or that we will ever be able to operate profitably. Accordingly, we have no track record of successful business activities, strategic decision-making by management, fund-raising ability, and other factors that would allow an investor to assess the likelihood that we will be successful in implementing our business plan. There is a substantial risk that we will not be successful in implementing our business plan, or if initially successful, in thereafter generating any operating revenues or in achieving profitable operations.

WE WILL OPERATE IN A HIGHLY COMPETITIVE ENVIRONMENT. IF WE ARE UNABLE TO SUCCESSFULLY COMPETE WITH OTHERS BUSINESSES, THE FINANCIAL CONDITION OF OUR BUSINESS COULD BE MATERIALLY ADVERSELY EFFECTED.

We operate in a highly competitive environment. Our competition includes various sized companies, including large established business. Many of them may sell same services in our markets at competitive prices. Some competitors will accept lower margins, or negative margins, to attract attention and acquire new customers. To compete we may be forced to accept lower margins, which may reduce our gross profit.

We will be competing against established Internet listing companies like eBay and Craigslist. Well established internet companies have better ability to attract, retain and engage buyers and sellers. We do not have strong customer service and brand recognition yet as established Internet listing companies. If we are unable to successfully compete with others businesses, the financial condition of our business could be materially adversely effected.

IF WE DO NOT ATTRACT CUSTOMERS, WE WILL NOT MAKE A PROFIT, WHICH WILL ULTIMATELY RESULT IN A CESSATION OF OPERATIONS.

We currently have no customers to purchase any services from us. We have not identified any customers and we cannot guarantee we ever will have any customers. Even if we obtain customers, there is no guarantee that we will generate a profit. If we cannot generate a profit, we will have to suspend or cease operations. You are likely to lose your entire investment if we cannot sell our services with prices which generate a profit.

OUR SOLE OFFICER AND DIRECTOR WILL OWN 50% OF OUR OUTSTANDING COMMON STOCK IF THE MAXIMUM OFFERING IS OBTAINED AND THEREFORE WILL HAVE SIGNIFICANT INFLUENCE IN CORPORATE DECISIONS.

If the maximum offering shares is sold Aleksandrs Sviks, our sole officer and director, will own 50% of the outstanding shares of our common stock. Accordingly, he will have significant influence in determining the outcome of all corporate transactions or other matters, including the election of directors, mergers, consolidations and the sale of all or substantially all of our assets, and also the power to prevent or cause a change in control. The interests of Mr. Sviks may differ from the interests of the other stockholders and may result in corporate decisions that are disadvantageous to other shareholders.

WE WILL NEED TO ESTABLISH ADDITIONAL RELATIONSHIPS WITH LOCAL AGENTS AND MARKETING CONSULTANTS TO FULLY DEVELOP AND MARKET OUR COMPANY.

We do not possess all of the resources necessary to develop and commercialize our proposed services on a mass scale. We will need to develop a network of third-party agents that will carry out our proposed services, as well as enhance our marketing through appropriate arrangements with local marketing consultants to develop and commercialize our planned concierge services. If we are not able to enlist the services of third-party vendors, or seek out marketing consultants, our business will suffer.

REVENUES DERIVED FROM INTERNATIONAL OPERATIONS, AND A DOWNTURN IN INTERNATIONAL COMMERCE, COULD SEVERELY IMPACT RESULTS OF OPERATIONS.

A portion of the Company's business could be conducted outside the United States. International trade is influenced by many factors, including economic and political conditions, employment issues, currency fluctuations and laws relating to tariffs, trade restrictions, foreign investments and taxation. As a result, the Company's operations are subject to various risks such as loss of revenue due to the instability of foreign economies, currency fluctuations and devaluations, adverse tax policies and governmental activities that may limit or disrupt markets, restrict payments or the movement of funds or result in the deprivation of contract rights

WE ARE A SMALL START-UP BUSINESS WITH SOLE OFFICER AND DIRECTOR, WHO WILL BE DEVOTING LIMITED TIME TO OUR OPERATIONS.

As a result, we will have difficulty competing with more well established concierge services that have substantially more assets and personnel than we do. As a result, our potential revenues could be effectively reduced.

WE MAY FACE DAMAGE TO OUR REPUTATION IF OUR FUTURE CLIENTS ARE NOT SATISFIED WITH OUR SERVICES. IN THIS CASE, IT IS UNLIKELY THAT WE WILL BE ABLE TO OBTAIN FUTURE ENGAGEMENTS. IF WE ARE UNABLE TO OBTAIN ENGAGEMENTS, INVESTORS ARE LIKELY TO LOSE THEIR ENTIRE INVESTMENT.

As a Internet based Concierge firm, we depend and will continue to depend to a large extent on referrals and new engagements from our former customers as we will attempt to establish a reputation for professional service company and integrity to attract and customers. As a result, if a customer is not satisfied with our services, such lack of satisfaction may be more damaging to our business than it may be to other businesses. Accordingly, no assurances can be given that we will obtain customers in the foreseeable future.

ANY FAILURE TO OFFER HIGH-QUALITY CUSTOMER'S SERVICES MAY ADVERSELY AFFECT OUR RELATIONSHIPS WITH OUR FUTURE CUSTOMERS AND OUR FINANCIAL RESULTS.

We may be unable to respond quickly enough to accommodate short-term increases in customer demand for support services. We also may be unable to modify the format of our support services to compete with changes in support services provided by our competitors. Increased customer demand for these services, without corresponding revenues, could increase costs and adversely affect our operating results. In addition, our sales process will be highly depend on business reputation and on positive recommendations from customers. Any failure to maintain high-quality technical support, or a market perception that we do not maintain high-quality support, could adversely affect our reputation, our ability to sell our services and our future profitability

THE PRICING FOR OUR SERVICES IS UNCERTAIN.

Prices for our concierge services will ultimately be affected by the prices that third-party agents charge us, and such prices are expected to fall with increasing competition thus proposed prices for our planned services may fall correspondingly. Accordingly, there can be no assurance that our future pricing schedule will prove to be viable, or that demand for our services will materialize at the prices we would like to charge. Additionally, we may not be able to sustain adequate pricing levels as competitors introduce competing services.

GOVERNMENT REGULATION OF THE INTERNET AND E-COMMERCE IS EVOLVING, AND UNFAVORABLE CHANGES OR FAILURE BY US TO COMPLY WITH THESE REGULATIONS COULD SUBSTANTIALLY HARM OUR BUSINESS AND RESULTS OF OPERATIONS.

We are subject to general business regulations and laws as well as regulations and laws specifically governing the internet and e-commerce. Existing and future regulations and laws could impede the growth of the internet or other online services. These regulations and laws may involve taxation, tariffs, subscriber privacy, data protection, content, copyrights, distribution, electronic contracts and other communications, consumer protection, the provision of online payment services and the characteristics and quality of services. It is not clear how existing laws governing issues such as property ownership, sales and other taxes, libel and personal privacy apply to the internet as the vast majority of these laws were adopted prior to the advent of the internet and do not contemplate or address the unique issues raised by the internet or e-commerce. In addition, it is possible that governments of one or more countries may seek to censor content available on our websites and applications or may even attempt to completely block access to our websites. Adverse legal or regulatory developments could substantially harm our business. In particular, in the event that we are restricted, in whole or in part, from operating in one or more countries, our ability to retain or increase our subscriber base may be adversely affected and we may not be able to maintain or grow our revenue as anticipated.

New tax treatment of companies engaged in internet commerce may adversely affect the commercial use of our services and our financial results.

We are not currently subject to direct federal, state or local regulation other than regulations applicable to businesses generally or directly applicable to electronic commerce including user privacy policies, Web site content and general consumer protection laws. We are subject to federal and state consumer protection laws, including laws protecting the privacy of customer non-public information and regulations prohibiting unfair and deceptive trade practices.

DUE TO THE GLOBAL NATURE OF THE INTERNET, IT IS POSSIBLE THAT VARIOUS COUNTRIES MIGHT ATTEMPT TO REGULATE TRANSMISSIONS OR LEVY SALES, INCOME OR OTHER TAXES RELATING TO OUR ACTIVITIES.

Tax authorities at the international, federal, state and local levels are currently reviewing the appropriate treatment of companies engaged in internet commerce. New or revised international, federal, state or local tax regulations may subject us or our subscribers to additional sales, income and other taxes. We cannot predict the effect of current attempts to impose sales, income or other taxes on commerce over the internet. New or revised taxes and, in particular, sales taxes, VAT and similar taxes would likely increase the cost of doing business online and decrease the attractiveness of advertising and selling goods and services over the internet. New taxes could also create significant increases in internal costs necessary to capture data, and collect and remit taxes. Any of these events could have an adverse effect on our business and results of operations.

IF WE ARE UNABLE TO MAINTAIN FAVORABLE TERMS WITH OUR FUTURE AGENTS WHO MAKES SMALL TASKS OR RUN CUSTOMERS ERRANDS, OUR FUTURE PROFITABILITY MAY BE ADVERSELY AFFECTED.

The success of our business will depend in part on our ability to retain and increase the number of persons who will use our service. If our future agents decide that our services no longer effective means of selling their services, they may demand a higher percentage of the revenue. This would decrease our gross profit.

Our operating results will be affected if we are unable to attract new person wishing to use our website. We are need to attract ne agents in numbers sufficient to grow our business. If we will be able to attract new agents and may not be able to retain or attract agents in sufficient numbers to grow our business then we may be required to incur significantly higher marketing expenses or accept lower margins in order to attract new persons willing to run our customers errands. Decrease in number of agents who will use our service would have an adverse effect on our business, financial condition and results of operation.

AS AN "EMERGING GROWTH COMPANY" UNDER THE JOBS ACT, WE ARE PERMITTED TO RELY ON EXEMPTIONS FROM CERTAIN DISCLOSURE REQUIREMENTS.

We qualify as an "emerging growth company" under the JOBS Act. As a result, we are permitted to, and intend to, rely on exemptions from certain disclosure requirements. For so long as we are an emerging growth company, we will not be required to: - have an auditor report on our internal controls over financial reporting pursuant to Section 404(b) of the Sarbanes-Oxley Act;

- have an auditor report on our internal controls over financial reporting pursuant to Section 404(b) of the Sarbanes-Oxley Act;
- comply with any requirement that may be adopted by the Public Company Accounting Oversight Board regarding mandatory audit firm rotation or a supplement to the auditor's report providing additional information about the audit and the financial statements (i.e., an auditor discussion and analysis);
- submit certain executive compensation matters to shareholder advisory votes, such as "say-on-pay" and "say-on-frequency;" and
- disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the Chief Executive's compensation to median employee compensation.

In addition, Section 107 of the JOBS Act also provides that an emerging growth company can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an emerging growth company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We have elected to take advantage of the benefits of this extended transition period. Our financial statements may therefore not be comparable to those of companies that comply with such new or revised accounting standards.

We will remain an "emerging growth company" for up to five years, or until the earliest of (i) the last day of the first fiscal year in which our total annual gross revenues exceed \$1 billion, (ii) the date that we become a "large accelerated filer" as defined in Rule 12b-2 under the Securities Exchange Act of 1934, which would occur if the market value of our ordinary shares that is held by non-affiliates exceeds \$700 million as of the last business day of our most recently completed second fiscal quarter or (iii) the date on which we have issued more than \$1 billion in non-convertible debt during the preceding three year period.

Until such time, however, we cannot predict if investors will find our common stock less attractive because we may rely on these exemptions. If some investors find our common stock less attractive as a result, there may be a less active trading market for our common stock and our stock price may be more volatile.

BECAUSE WE ARE CURRENTLY CONSIDERED A "SHELL COMPANY" WITHIN THE MEANING OR RULE 12B-2 PURSUANT TO THE SECURITIES EXCHANGE ACT OF 1934, THE ABILITY OF HOLDERS OF OUR COMMON STOCK TO SELL THEIR SHARES MAY BE LIMITED BY APPLICABLE REGULATIONS.

We are, currently, considered a "shell company" within the meaning of Rule 12b-2 pursuant to the Securities Exchange Act of 1934 and Rule 405 pursuant to the Securities Act of 1933, in that we currently have nominal operations and nominal assets other than cash. Accordingly, the ability of holders of our common stock to sell their shares may be limited by applicable regulations.

As a result of our classification as a "shell company", our investors are not allowed to rely on the "safe harbor" provisions of Rule 144 promulgated pursuant to the Securities Act of 1933 so as not to be considered underwriters in connection with the sale of our securities until one year from the date that we cease to be a "shell company." Additionally, as a result of our classification as a shell company:

- * Investors should consider shares of our common stock to be significantly risky and illiquid investments
- * We may not register our securities on Form S-8 (an abbreviated form of registration statement)
- * Our ability to attract additional funding to sustain our operations may be limited significantly

We can provide no assurance or guarantee that we will cease to be a "shell company" and, accordingly, we can provide no assurance or guarantee that there will be a liquid market for our shares. Accordingly, investors may not be able to sell our shares and lose their investments in the Company.

WE MAY BE EXPOSED TO POTENTIAL CIVIL DISPUTES IN CONNECTION TO SERVICES OFFERED BY INDIVIDUALS LISTING ON OUR WEBSITE. ANY LIABILITY CLAIMS MAY HAVE ADVERSE PUBLICITY ON OUR BUSINESS.

Recently some internet services companies (eBay, Craigslist, etc) have been subject to lawsuits concerning criminal and civil disputes in connection to services offered by individuals listing services on their sites. Any lawsuits

against us, regardless of merit, could be costly financially and could divert the attention of our sole director Mr.Sviks. It could also create negative publicity, which would harm our business. We can not predict whether liability claims will be brought against us in the future or the effect of any resulting adverse publicity on our business.

RISKS ASSOCIATED WITH THIS OFFERING

WE DO NOT HAVE A PUBLIC MARKET IN OUR SECURITIES. IF OUR COMMON STOCK HAS NO ACTIVE TRADING MARKET, YOU MAY NOT BE ABLE TO SELL YOUR COMMON SHARES AT ALL.

We do not have a public market for our common shares. Our securities are not traded on any exchange. We cannot assure you that an active public market will ever develop. Consequently, you may not be able to liquidate your investment in the event of an emergency or for any other reason.

WE DO NOT MEET THE REQUIREMENTS FOR OUR STOCK TO BE QUOTED ON NASDAQ, AMERICAN STOCK EXCHANGE OR ANY OTHER STOCK EXCHANGE AND THE TRADABILITY IN OUR STOCK WILL BE LIMITED UNDER THE PENNY STOCK REGULATION. THE LIQUIDITY OF OUR COMMON STOCK IS RESTRICTED AS OUR COMMON STOCK FALLS WITHIN THE DEFINITION OF A PENNY STOCK.

Under the rules of the Securities and Exchange Commission, if the price of the registrant's common stock is below \$5.00 per share, the registrant's common stock will come within the definition of a "penny stock." As a result, the registrant's common stock is subject to the "penny stock" rules and regulations. Broker-dealers who sell penny stocks to certain types of investors are required to comply with the Commission's regulations concerning the transfer of penny stock. These regulations require broker-dealers to:

- Make a suitability determination prior to selling penny stock to the purchaser;
- Receive the purchaser's written consent to the transaction; and
- Provide certain written disclosures to the purchaser.

These requirements may restrict the ability of broker/dealers to sell the registrant's common stock, and may affect the ability to resell the registrant's common stock.

WE HAVE NOT YET ADOPTED OF CERTAIN CORPORATE GOVERNANCE MEASURES. AS A RESULT, OUR STOCKHOLDERS HAVE LIMITED PROTECTIONS AGAINST INTERESTED DIRECTOR TRANSACTIONS, CONFLICTS OF INTEREST AND SIMILAR MATTERS.

The Sarbanes-Oxley Act of 2002, as well as rule changes proposed and enacted by the SEC, the New York and American Stock Exchanges and the Nasdaq Stock Market, as a result of Sarbanes-Oxley, require the implementation of various measures relating to corporate governance. These measures are designed to enhance the integrity of corporate management and the securities markets and apply to securities which are listed on those exchanges or the Nasdaq Stock Market. Because we are not presently required to comply with many of the corporate governance provisions and because we chose to avoid incurring the substantial additional costs associated with such compliance any sooner than necessary, we have not yet adopted these measures.

Because our sole director is non-independent, we do not currently have independent audit or compensation committees. As a result, the sole director has the ability, among other things, to determine her own level of compensation. Until we comply with such corporate governance measures, regardless of whether such compliance is required, the absence of such standards of corporate governance may leave our stockholders without protections against interested director transactions, conflicts of interest and similar matters and investors may be reluctant to provide us with funds necessary to expand our operations.

OUR SOLE OFFICER AND DIRECTOR HAS NO EXPERIENCE MANAGING A PUBLIC COMPANY WHICH IS REQUIRED TO ESTABLISH AND MAINTAIN DISCLOSURE CONTROLS AND PROCEDURES AND INTERNAL CONTROL OVER FINANCIAL REPORTING.

We have never operated as a public company. Aleksandrs Sviks , our sole officer, has no experience managing a public company which is required to establish and maintain disclosure controls and procedures and internal control over financial reporting. As a result, we may not be able to operate successfully as a public company, even if our operations are successful. We plan to comply with all of the various rules and regulations, which are required for a public company.

However, if we cannot operate successfully as a public company, your investment may be materially adversely affected. Our inability to operate as a public company could be the basis of your losing your entire investment in us.

WE MAY BE UNSUCCESSFUL IN IMPLEMENTING REQUIRED INTERNAL CONTROLS OVER FINANCIAL REPORTING.

We are not currently required to comply with the SEC's rules implementing Section 404 of the Sarbanes-Oxley Act of 2002, and are therefore not required to make a formal assessment of the effectiveness of our internal control over financial reporting for that purpose. Upon becoming a public company, we will be required to comply with the SEC's rules implementing Section 302 of the Sarbanes-Oxley Act of 2002, which will require our management to certify financial and other information in our quarterly and annual reports and provide an annual management report on the effectiveness of our internal control over financial reporting. We will not be required to make our first assessment of our internal control over financial reporting until the year following our first annual report required to be filed with the SEC. To comply with the requirements of being a public company, we will need to create information technology systems, implement financial and management controls, reporting systems and procedures and contract additional accounting, finance and legal staff.

Any failure to develop or maintain effective controls, or any difficulties encountered in our implementation of our internal controls over financial reporting could result in material misstatements that are not prevented or detected on a timely basis, which could potentially subject us to sanctions or investigations by the SEC or other regulatory authorities. Ineffective internal controls could cause investors to lose confidence in our reported financial information.

WE ARE SELLING THIS OFFERING WITHOUT AN UNDERWRITER AND MAY BE UNABLE TO SELL ANY COMMON SHARES.

This offering is self-underwritten, that is, we are not going to engage the services of an underwriter to sell the shares; we intend to sell our shares through our President, who will receive no commissions. He will offer the shares to friends, family members, and business associates, however, there is no guarantee that he will be able to sell any of the shares. Unless he is successful in selling all of the shares and we receive the proceeds from this offering, we may have to seek alternative financing to implement our business plan. Mr. Sviks has no experience in selling stock to potential investors

IF WE FAIL TO ESTABLISH AND MAINTAIN EFFECTIVE INTERNAL CONTROLS, WE MAY NOT BE ABLE TO REPORT OUR FINANCIAL RESULTS ACCURATELY.

When this registration statement is effective, we will be required to establish and maintain internal controls over financial reporting and disclosure and procedures and comply with other requirements of the Sarbanes-Oxley Act and the rules promulgated by the SEC. We will need to include a report on our internal control over financial reporting and its assessment on whether such controls were effective for the prior fiscal year with our annual reports that we file under the Securities Exchange Act of 1934 with the SEC. Under current federal securities laws, our management may conclude that our internal control over financial reporting is not effective.

As long as we remain an "emerging growth company," as defined in the Jumpstart our Business Startups Act of 2012, or JOBS Act, we may, and we intend to, take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies, including not being required to comply with the auditor attestation requirements concerning management's reports on effectiveness of internal controls over financial reporting otherwise required under the Sarbanes-Oxley Act. We intend to take advantage of these reporting exemptions until we are no longer an emerging growth company.

Once we cease to be an emerging growth company, as of each fiscal year end thereafter, our independent registered public accounting firm will be required to evaluate and report on our internal control over financial reporting in the event we become an accelerated filer or large accelerated filer. To the extent we find material weaknesses or other deficiencies in our internal control, we may determine that we have ineffective internal control over financial reporting as of any particular fiscal year end, and we may receive an adverse assessment of our internal control over financial reporting from our independent registered public accounting firm. Moreover, any material weaknesses or other deficiencies in our internal controls may delay the conclusion of an annual audit or a review of our quarterly financial results.

We cannot guarantee that our internal control and disclosure control and procedures will prevent all possible errors. Because of the inherent limitations in all control systems, no system of control can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the possibility that judgments in decision-making can be faulty and subject to simple error or mistake. Furthermore, controls can be circumvented by individual acts of some persons, by collusion of two or more persons, or by management override of those controls. The design of any system of controls is based, in part, upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its anticipated goals under all potential future conditions. Over time, a control may become inadequate because of changes in conditions of the degree of compliance with policies or procedures may deteriorate. Because of inherent limitations in a cost effective control system, misstatements due to error or fraud may occur and may not be detected.

THE COSTS TO MEET OUR REPORTING AND OTHER REQUIREMENTS AS A PUBLIC COMPANY SUBJECT TO THE EXCHANGE ACT OF 1934 WILL BE SUBSTANTIAL AND MAY RESULT IN US HAVING INSUFFICIENT FUNDS TO EXPAND OUR BUSINESS OR EVEN TO MEET ROUTINE BUSINESS OBLIGATIONS.

As a public entity subject to the reporting requirements of the Exchange Act of 1934, we incur ongoing expenses associated with professional fees for accounting, legal and SEC filings and compliance. We estimate that these costs will increase if our business volume and activity increases. As a result of such expenses, we may not have sufficient funds to grow our operations.

WE MAY BE EXPOSED TO POTENTIAL RISKS AND SIGNIFICANT EXPENSES RESULTING FROM THE REQUIREMENTS UNDER SECTION 404 OF THE SARBANES-OXLEY ACT OF 2002.

If we become registered with the SEC, we will be required, pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, to include in our annual report our assessment of the effectiveness of our internal control over financial reporting. We expect to incur significant continuing costs, including accounting fees and staffing costs, in order to maintain compliance with the internal control requirements of the Sarbanes-Oxley Act of 2002. Development of our business will necessitate ongoing changes to our internal control systems, processes and information systems. Currently, we have no employees. We do not intend to develop or manufacture any products, and consequently have no products in development, manufacturing facilities or intellectual property rights. As we develop our business, obtain regulatory approval, hire employees and consultants and seek to protect our intellectual property rights, our, our current design for internal control over financial reporting will not be sufficient to enable management to determine that our internal controls are effective for any period, or on an ongoing basis. Accordingly, as we develop our business, such development and growth will necessitate changes to our internal control systems, processes and information systems, all of which will require additional costs and expenses.

In the future, if we fail to complete the annual Section 404 evaluation in a timely manner, we could be subject to regulatory scrutiny and a loss of public confidence in our internal controls. In addition, any failure to implement required new or improved controls, or difficulties encountered in their implementation, could harm our operating results or cause us to fail to meet our reporting obligations.

However, as an "emerging growth company," as defined in the JOBS Act, our independent registered public accounting firm will not be required to formally attest to the effectiveness of our internal control over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 until the later of the year following our first annual report required to be filed with the SEC, or the date we are no longer an emerging growth company. At such time, our independent registered public accounting firm may issue a report that is adverse in the event it is not satisfied with the level at which our controls are documented, designed or operating.

WE MAY IN THE FUTURE ISSUE ADDITIONAL SHARES OF COMMON STOCK, WHICH WILL DILUTE SHARE VALUE OF INVESTORS IN THE OFFERING.

Our Articles of Incorporation authorize the issuance of 75,000,000 shares of common stock, par value \$0.001 per share, of which 5,000,000 shares are issued and outstanding. The future issuance of common stock may result in substantial dilution in the percentage of our common stock held by our then existing shareholders. We may value any common stock issued in the future on an arbitrary basis. The issuance of common stock for future services or acquisitions or other corporate actions may have the effect of diluting the value of the shares held by investors in the offering, and might have an adverse effect on any trading market for our common stock.

DETERMINATION OF OFFERING PRICE

The offering price of the shares has been determined arbitrarily by us. The price does not bear any relationship to our assets, book value, earnings, or other established criteria for valuing a privately held company. In determining the number of shares to be offered and the offering price, we took into consideration our cash on hand and the amount of money we would need to implement our business plan. Accordingly, the offering price should not be considered an indication of the actual value of the securities.

DILUTION

The price of the current offering is fixed at \$0.02 per common share. This price is significantly higher than the price paid by our sole director and officer for common equity since inception on May 24, 2013 Aleksandrs Sviks, our sole officer and director, paid \$.001 per share for the 5,000,000 common shares

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the prospectus includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements are often identified by words like: believe, expect, estimate, anticipate, intend, project and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements, which apply only as of the date of this prospectus. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results or our predictions.

Marika Inc. will be online job marketplace that connect people or companies in need to run errands or small tasks and the persons ("agents") who wish to assist in running those errands or small tasks. Customers will be able to post their tasks on our web site and agents will submit bids for the completion of the work.

We are a development stage corporation and only recently started our operations. We have not generated or realized any revenues from our business operations. Our cash balance is \$5,200 as of June 30, 2013. We believe our cash balance is not sufficient to fund our limited levels of operations for any period of time. We have been utilizing and may utilize funds from Aleksandrs Sviks, our sole officer and director, who has informally agreed to advance funds up to \$25,000 to allow us to pay for offering costs, filing fees, and professional fees and our business plan expenses. Mr. Sviks, however, has no formal commitment, arrangement or legal obligation to advance or loan funds to the company. In order to achieve our business plan goals, we will need the funding from this

offering. We are a development stage company and have generated no revenues to date. We have our first contract and have commenced operations.

We have executed an agreement with Superakcijas Company on June 20, 2013. Superakcijas Company is an internet shop and they are going to use our run errands services.

Our independent registered public accountant has issued a going concern opinion. This means that there is substantial doubt that we can continue as an on-going business for the next twelve months unless we obtain additional capital to pay our bills. This is because we have not generated revenues and no revenues are anticipated until we complete our initial business development. There is no assurance we will ever reach that stage.

To meet our need for cash we are attempting to raise money from this offering. We believe that we will be able to raise enough money through this offering to commence operations but we cannot guarantee that once we commence operations we will stay in business after doing so. If we are unable to successfully find customers we may quickly use up the proceeds from this offering and will need to find alternative sources. At the present time, we have not made any arrangements to raise additional cash, other than through this offering.

We qualify as an "emerging growth company" under the JOBS Act. As a result, we are permitted to, and intend to, rely on exemptions from certain disclosure requirements. For so long as we are an emerging growth company, we will not be required to:

- * have an auditor report on our internal controls over financial reporting pursuant to Section 404(b) of the Sarbanes-Oxley Act;
- * comply with any requirement that may be adopted by the Public Company Accounting Oversight Board regarding mandatory audit firm rotation or a supplement to the auditor's report providing additional information about the audit and the financial statements (i.e., an auditor discussion and analysis);
- * submit certain executive compensation matters to shareholder advisory votes, such as "say-on-pay" and "say-on-frequency;" and
- * disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO's compensation to median employee compensation.

In addition, Section 107 of the JOBS Act also provides that an emerging growth company can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an emerging growth company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We have elected to take advantage of the benefits of this extended transition period. Our financial statements may therefore not be comparable to those of companies that comply with such new or revised accounting standards.

We will remain an "emerging growth company" for up to five years, or until the earliest of (i) the last day of the first fiscal year in which our total annual gross revenues exceed \$1 billion, (ii) the date that we become a "large accelerated filer" as defined in Rule 12b-2 under the Securities Exchange Act of 1934, which would occur if the market value of our ordinary shares that is held by non-affiliates exceeds \$700 million as of the last business day of our most recently completed second fiscal quarter or (iii) the date on which we have issued more than \$1 billion in non-convertible debt during the preceding three year period.

We will require a minimum funding of approximately \$25,000 to conduct our proposed operations for a minimum period of one year including costs associated with maintaining our reporting status with the SEC.

PLAN OF OPERATION

We will not be conducting any product research or development. We do not expect to purchase or sell significant equipment. Further we do not expect significant changes in the number of employees.

We expect to complete our public offering within one year after the effectiveness of our registration statement by the Securities and Exchange Commissions. We intend to concentrate our efforts on raising capital during this period. Our operations will be limited due to the limited amount of funds on hand. Once we raise funds from this offering we plan to do the following activities to expand our business operations.

Our plan of operations is as follows:

1st - 2nd month following the close of our offering.

We plan to purchase domain for our web site. We will hire a contractor to develop our website in English. We are planning to spend \$1,500

3rd - 4th month following the close of our offering.

Finish developing, testing and launching company web site.
We are planning to spend \$1,500

5th - 6th months following the close of our offering.

Develop website version for Latvian, Lithuanian and Estonian customers. We will hire a contractor to do this. We are planning to spend \$2,000

7th - 8th months following the close of our offering.

1) We are planning to hire SEO contractors (English language).
We will hire a contractor to help us perform the following: add Search Engine Optimized (SEO) content to our website profile to help our site have a high page rank, and to boost customer's traffic. We are planning to spend \$500-\$2,500 monthly. The amount of funds for advertising will depend on the amount of money we can raise from these offering.

2) We are planning to hire SEO contractors for Latvian, Lithuanian and Estonian languages.
We will hire a contractor to help us perform the following: add Search Engine Optimized (SEO) content to our website profile to help our site have a high page rank, and to boost traffic. TYPE OF ERRANDS

Errand services can be grouped into two categories. The simple errands and complex errands. Simple errands are those tasks that can be performed by anyone because these errands do not require any special training. Examples include shopping, pet care, laundry pickup and delivery, utility bill payments, school run, house sitting etc. however, complex errands are those tasks that will require some specialized training. Examples of complex errands involves event planning for your client, planning travel schedules and vocation spots, appointment management etc. to be able to be efficient to carry out complex errands, you will need to be computer literate and have good people skills.

Until we start to sell our services, we do not believe that our operations will be profitable. If we are unable to attract customers to buy our services we may have to suspend or cease operations. Even if we have revenues after starting to sell our services, there is no guarantee that we will ever become profitable. If we cannot generate sufficient revenues to continue operations, we will suspend or cease operations.

Aleksandrs Sviks, our president will be devoting approximately 50% of her time to our operations. Once we expand operations, and are able to attract more and more customers to buy our services, Mr. Sviks has agreed to commit more time as required. Because Mr. Sviks will only be devoting limited time to our operations, our operations may be sporadic and occur at times which are convenient to her. As a result, operations may be periodically interrupted or suspended which could result in a lack of revenues and a cessation of operations.

LIMITED OPERATING HISTORY; NEED FOR ADDITIONAL CAPITAL

There is no historical financial information about us upon which to base an evaluation of our performance. We are in start-up stage operations and have not generated any revenues. We cannot guarantee that we will be successful in our business operations. Our business is subject to risks inherent in the establishment of a new business enterprise, including limited capital resources and possible cost overruns due to price and cost increases in services and products.

We have no assurance that we will be successful in raising funds in this offering or that future financing will be available to us on acceptable terms. If financing is not available on satisfactory terms, we may be unable to continue, develop or expand our operations. Equity financing could result in additional dilution to then existing shareholders.

RESULTS OF OPERATION

FROM INCEPTION ON MAY 24, 2013 TO JUNE 30, 2013

During this period we incorporated the company, prepared a business plan and executed an Agreement with Superakcijas Company. Our loss since inception is \$274 for filing costs related to the incorporation of Marika Inc.

LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2013, we had cash in the amount of \$5,200 and liabilities of \$474.

Since inception, we have sold 5,000,000 common shares to our sole officer and director, at a price of \$0.001 per share, for aggregate proceeds of \$5,000.

To meet our need for cash, we are attempting to raise money from this offering. We cannot guarantee that we will be able to sell all the shares required. We will attempt to raise the necessary funds to proceed with all phases of our plan of operation.

We will be able to conduct our planned operations using currently available capital resources for approximately one to two months.

As of the date of this registration statement, the current funds available to Marika Inc. will not be sufficient to continue maintaining a reporting status. Our sole officer and director, Aleksandrs Sviks, has indicated that he may be willing to provide funds up to \$25,000 in the form of a non-secured loan for the next twelve months as the expenses are incurred if no other proceeds are obtained by Marika Inc. However, there is no contract in place or written agreement securing this agreement. Management believes if Marika Inc. cannot maintain its reporting status with the SEC, it will have to cease all efforts directed towards Marika Inc. As such, any investment previously made would be lost in its entirety.

GOING CONCERN

Our auditors have issued a going concern opinion, meaning that there is substantial doubt if we can continue as an on-going business for the next twelve months unless we obtain additional capital. No substantial revenues are anticipated until we have completed the financing from this offering and implemented our plan of operations. Our only source for cash at this time is investments by others in this offering. We must raise cash to implement our strategy and stay in business. If we are successful in raising the maximum amount of the offering we anticipate that we will likely be able to operate for at least one year and have the capital resources required to cover the material costs with becoming a publicly reporting. Marika Inc. anticipates over the next 12 months the cost of being a reporting public company will be approximately \$10,500

We are highly dependent upon the success of the private offering of equity, as described herein. Therefore, the failure thereof would result in the need to seek capital from other resources such as taking loans, which would likely not even be possible for Marika Inc. However, if such financing were available, because we are a development stage company with minimum operations to date, we would likely have to pay additional costs associated with high risk loans and be subject to an above market interest rate. At such time these funds are required, management would evaluate the terms of such debt financing. If Marika Inc. cannot raise additional proceeds via a private placement of its equity or debt securities, or secure a loan, we would be required to cease business operations. As a result, investors would lose all of their investment.

As of the date of this registration statement, the current funds available to the Company are not sufficient to operate the company or maintain a reporting status. The company's sole officer and director, Aleksandrs Sviks, has verbally agreed to loan the company up to \$25,000 to complete the registration process and to maintain a reporting status with the SEC in the form of a non-secured loan for the next twelve months as the expenses are incurred if no other proceeds are obtained by the Company; however, there is no contract in place or written agreement securing this agreement. Management believes if the company cannot maintain its reporting status with the SEC it will have to cease all efforts directed towards the company. As such, any investment previously made would be lost in its entirety.

Our auditors have issued a "going concern" opinion, meaning that there is substantial doubt if we can continue as an on-going business for the next twelve months unless we obtain additional capital. No substantial revenues are anticipated until we have completed the financing from this offering and implemented our plan of operations. Our only source for cash at this time is investments by others in this offering. We must raise cash to implement our strategy and stay in business. If one quarter of shares is sold for the gross proceeds of \$25,000 it will likely allow us to operate for at least one year and have the capital resources required to cover the material costs with becoming a publicly reporting company. The company anticipates over the next 12 months the cost of being a reporting public company will be approximately \$10,500. We do not believe that we will generate enough revenue to cover costs associated with being a publicly reporting company in the first 12 months.

Management believes that if we sell two-third of the shares in this offering so that we can complete our development program, we will likely generate revenue in 2014. However, there is no assurance that we will be able to sell two-third of the shares or will ever generate revenue.

Management believes that current trends toward lower capital investment in start-up companies, volatility in the internet sales market pose the most significant challenges to our success over the next year and in future years. Additionally, we will have to meet all the financial disclosure and reporting requirements associated with being a publicly reporting company. Our management will have to spend additional time on policies and procedures to make sure it is

compliant with various regulatory requirements, especially that of Section 404 of the Sarbanes-Oxley Act of 2002. This additional corporate governance time required of management could limit the amount of time management has to implement its business plan and impede the speed of its operations.

OFF-BALANCE SHEET ARRANGEMENTS

We have no off-balance sheet arrangements.

INDUSTRY OVERVIEW

According www.ibisworld.com over the past decade, the Business Concierge Services industry has grown steadily. Business concierge companies handle everything from appointment management to running errands, making travel reservations and even arranging pet sitting. Once exclusively the domain of celebrities and affluent professionals, business concierge service companies have increasingly targeted private households and corporate employees to fulfill a variety of their household management tasks. Industry revenue in 2012 is \$220 millions. Annual growth 2007-2012 is 0.3%. Industry has 668 businesses and employment is 2,360 persons.

COMPETITION

We operate in a highly competitive environment. Our competition includes various sized companies, including large established business. The principal competitive factors in our industry are pricing and brand recognition. Well established internet companies such as EBay and Craigslist are recognizable brand names that everyone knows and uses. They have better ability to attract, retain and engage buyers and sellers. We do not have strong customer service and brand recognition yet as established Internet listing companies. Our competitors may sell same services in our markets at competitive prices. Some competitors will accept lower margins, or negative margins, to attract attention and acquire new customers. To compete we may be forced to accept lower margins, which may reduce our gross profit. To compete with established companies we will offer value-added services such as: Customer feedback, customizable search options, and payment upon work-completion confirmation.

We will sell the 5,000,000 common shares ourselves and do not plan to use underwriters or pay any commissions. We will be selling our common shares using our best efforts and no one has agreed to buy any of our common shares. There is no plan or arrangement to enter into any contracts or agreements to sell the common shares with a broker or dealer. Our officer and director will sell the common shares and intends to offer them to friends, family members and business acquaintances.

The Company's shares may be sold to purchasers from time to time directly by and subject to the discretion of the Company. Further, the Company will not offer its shares for sale through underwriters, dealers, agents or anyone who may receive compensation in the form of underwriting discounts, concessions or commissions from the Company and/or the purchasers of the shares for whom they may act as agents. The shares of common stock sold by the Company may be occasionally sold in one or more transactions.

In order to comply with the applicable securities laws of certain states, the securities will be offered or sold in those only if they have been registered or qualified for sale; an exemption from such registration or if qualification requirement is available and with which Marika Inc has complied.

In connection with the Company's selling efforts in the offering, Aleksandrs Sviks will not register as a broker-dealer pursuant to Section 15 of the Exchange Act, but rather will rely upon the "safe harbor" provisions of SEC Rule 3a4-1, promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Generally speaking, Rule 3a4-1 provides an exemption from the broker-dealer registration requirements of the Exchange Act for persons associated with an issuer that participate in an offering of the issuer's securities. Mr. Sviks is not subject to any statutory disqualification, as that term is defined in Section 3(a)(39) of the Exchange Act. Mr. Sviks will not be compensated in connection with his participation in the offering by the payment of commissions or other remuneration based either directly or indirectly on transactions in our securities. At the end of the offering, Mr. Sviks will continue to primarily perform substantial duties for the Company or on its behalf otherwise than in connection with transactions in securities. Mr. Nedrygaylo will not participate in selling an offering of securities for any issuer more than once every 12 months other than in reliance on Exchange Act Rule 3a4-1(a)(4)(i) or (iii).

As of the date of this prospectus, we have not paid any cash dividends to stockholders. The declaration of any future cash dividend will be at the discretion of our board of directors and will depend upon our earnings, if any, our capital requirements and financial position, our general economic conditions, and other pertinent conditions. It is our present intention not to pay any cash dividends in the foreseeable future, but rather to reinvest earnings, if any, in our business operations.

NEVADA ANTI-TAKEOVER LAWS

Currently, we have no Nevada shareholders and since this offering will not be made in the State of Nevada, no shares will be sold to its residents. Further, we do not do business in Nevada directly or through an affiliate corporation and we do not intend to do so. Accordingly, there are no anti-takeover provisions that have the affect of delaying or preventing a change in our control.

The Nevada Business Corporation Law contains a provision governing "Acquisition of Controlling Interest." This law provides generally that any person or entity that acquires 20% or more of the outstanding voting shares of a publicly-held Nevada corporation in the secondary public or private market may be denied voting rights with respect to the acquired shares, unless a majority of the disinterested stockholders of the corporation elects to restore such voting rights in whole or in part. The control share acquisition law provides that a person or entity acquires "control shares" whenever it acquires shares that, but for the operation of the control share acquisition act, would bring its voting power within any of the following three ranges: (1) 20 to 33 1/3%, (2) 33 1/3 to 50%, or (3) more than 50%. A "control share acquisition" is generally defined as the direct or indirect acquisition of either ownership or voting power associated with issued and outstanding control shares. The stockholders or board of directors of a corporation may elect to exempt the stock of the corporation from the provisions of the control share acquisition act through adoption of a provision to that effect in the Articles of Incorporation or Bylaws of the corporation. Our Articles of Incorporation and Bylaws do not exempt our common stock from the control share acquisition law. The control share acquisition law is applicable only to shares of "Issuing Corporations" as defined by the act. An Issuing Corporation is a Nevada corporation, which; (1) has 200 or more stockholders, with at least 100 of such stockholders being both stockholders of record and residents of Nevada; and (2) does business in Nevada directly or through an affiliated corporation.

At this time, we do not have 100 stockholders of record resident of Nevada. Therefore, the provisions of the control share acquisition law do not apply to acquisitions of our shares and will not until such time as these requirements have been met. At such time as they may apply to us, the provisions of the control share acquisition law may discourage companies or persons interested in acquiring a significant interest in or control of the Company, regardless of whether such acquisition may be in the interest of our stockholders.

The Nevada "Combination with Interested Stockholders Statute" may also have an effect of delaying or making it more difficult to effect a change in control of the Company. This statute prevents an "interested stockholder" and a resident domestic Nevada corporation from entering into a "combination," unless certain conditions are met. The statute defines "combination" to include any merger or consolidation with an "interested stockholder," or any sale, lease, exchange, mortgage, pledge, transfer or other disposition, in one transaction or a series of transactions with an "interested stockholder" having; (1) an aggregate market value equal to 5 percent or more of the aggregate market value of the assets of the corporation; (2) an aggregate market value equal to 5 percent or more of the aggregate market value of all outstanding shares of the corporation; or (3) representing 10 percent or more of the earning power or net income of the corporation. An "interested stockholder" means the beneficial owner of 10 percent or more of the voting shares of a resident domestic corporation, or an affiliate or associate thereof. A corporation affected by the statute may not engage in a "combination" within three years after the interested stockholder acquires its shares unless the combination or purchase is approved by the board of directors before the interested stockholder acquired such shares. If approval is not obtained, then after the expiration of the three-year period, the business combination may be consummated with the approval of the board of directors or a majority of the voting power held by disinterested stockholders,

or if the consideration to be paid by the interested stockholder is at least equal to the highest of: (1) the highest price per share paid by the interested stockholder within the three years immediately preceding the date of the announcement of the combination or in the transaction in which he became an interested stockholder, whichever is higher; (2) the market value per common share on the date of announcement of the combination or the date the interested stockholder acquired the shares, whichever is higher; or (3) if higher for the holders of preferred stock, the highest liquidation value of the preferred stock. The effect of Nevada's business combination law is to potentially discourage parties interested in taking control of the Company from doing so if it cannot obtain the approval of our board of directors.

INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Our Bylaws provide that we will indemnify an officer, director, or former officer or director, to the full extent permitted by law. We have been advised that, in the opinion of the SEC, indemnification for liabilities arising under the Securities Act is against public policy as expressed in the Securities Act, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment of expenses incurred or paid by a director, officer or controlling person in the successful defense of any action, suit or proceeding) is asserted by one of our director, officers, or controlling persons in connection with the securities being registered, we will, unless in the opinion of our legal counsel the matter has been settled by controlling precedent, submit the question of whether such indemnification is against public policy to a court of appropriate jurisdiction. We will then be governed by the court's decision.

INDEPENDENT AUDITOR' REPORT ON FINANCIAL STATEMENTS

To the Board of Directors
Marika, Inc.

We have audited the accompanying balance sheet of Marika, Inc. (A Development Stage Company) as of June 30, 2013, and the related statements of operations, stockholders' equity and cash flows for the period then ended, and the period May 24, 2013 (inception) to June 30, 2013. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Marika, Inc. (A Development Stage Company) as of June 30, 2013 and the results of its operations and cash flows for the periods then ended and May 24, 2013 (inception), to June 30, 2013 in conformity with generally accepted accounting principles in the United States of America.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note #7 to the financial statements, the company has had significant operating losses; a working capital deficiency and its need for new capital raise substantial doubt about its ability to continue as a going concern. Management's plan in regard to these matters is also described in Note #7. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

 3. To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
 4. If the registrant is a foreign private issuer, to file a post-effective amendment to the registration statement to include any financial statements required by Item 8.A. of Form 20-F at the start of any delayed offering or throughout a continuous offering.  - i. If the registrant is relying on Rule 430B (?230.430B of this chapter):
 - A. Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and
 - B. Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; or

Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

6. That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities: The undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

 - ii. Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
 - iii. The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
 - iv. Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

Filed August 20, 2013
File No. 333-190728

Dear: Mara L. Ransom

In response to your letter dated September 16, 2013 which included comments regarding our registration statement, we have prepared the following responses:

GENERAL

COMMENT: 1

Please supplementally provide us with copies of all written communications, as defined in Rule 405 under the Securities Act, that you, or anyone authorized to do so on your behalf, present to potential investors in reliance on Section 5(d) of the Securities Act, whether or not they retain copies of the communications. Similarly, please supplementally provide us with any research reports about you that are published or distributed in reliance upon Section 2(a)(3) of the Securities Act of 1933 added by Section 105(a) of the Jumpstart Our Business Startups Act by any broker or dealer that is participating or will participate in your offering.

Response: There will not be any such written communications or research reports provided to our Investors.

COMMENT: 2

Section (a)(2) of Rule 419 defines a blank check company as a company that is issuing penny stock that is "a development stage company that has no specific business plan or purpose or has indicated that its business plan is to engage in a merger or acquisition with an unidentified company or companies, or other entity." In discussing this definition in the adopting release, the Commission stated that it would "scrutinize...offerings for attempts to create the appearance that the registrant...has a specific business plan, in an effort to avoid the application of Rule 419." See Security Act Release No. 33-6932 (April 28, 1992).

It appears that your business may be commensurate in scope with the uncertainty ordinarily associated with a blank check company. Accordingly, please revise your disclosure throughout your registration statement to comply with Rule 419 of Regulation C or provide a detailed explanation as to why Rule 419 does not apply to you and this offering.

Response: In response to this comment we referred Rule 419(a)(2) of Regulation C, which defines a blank check company as a company that is "a development stage company that has no specific business plan or purpose, or has indicated that its business plan is to engage in a merger or acquisition with an unidentified company or companies" and is issuing penny stock. While we are a development stage company, the company is not a blank check company because:

- It has its own specific operational business plan,
- Its business plan has no indications to engage in a merger or acquisition with an unidentified company or companies, or other entity;
- We have no plans or intentions to be acquired by an operating company nor do we have plans to enter into a change of control or similar transaction or to change our management;
- Our sole officer and director, has not been previously involved in the management or ownership of a development stage company that has not implemented fully its business plan, engaged in a change of control or similar transaction, or has generated no or minimal revenues to date;
- The fact that the company is not a blank check company under Rule 419 has been disclosed prominently on the cover page of the prospectus.

COMMENT: 3

Please provide us with your analysis as to whether you are a shell company, as defined in Rule 405 under the Securities Act of 1933, as amended. In this regard, we note that you appear to have no or nominal operations and assets consisting of cash and nominal other assets. If you conclude that your company is a shell company, please revise your prospectus to disclose conspicuously that you are a shell company and further disclose the consequences of that status, such as the restrictions on your ability to use registration statements on Form S-8, the limitations on the ability of your security holders to use Rule 144 and the potential reduced liquidity or illiquidity of your securities.

Response: We have added following disclosure:

We are considered a "shell company" under applicable securities rules and subject to additional regulatory requirements as a result, including the inability of our shareholders to sell our shares in reliance on Rule 144 promulgated pursuant to the Securities Act of 1933, as well as our inability to register our securities on Form S-8 (an abbreviated registration process).

Accordingly, investors should consider our shares to be significantly risky and illiquid investments.

Also we have added following risk factor:

Because we are currently considered a "shell company" within the meaning of Rule 12b-2 pursuant to the Securities Exchange Act of 1934, the ability of holders of our common stock to sell their shares may be limited by applicable regulations.

We are, currently, considered a "shell company" within the meaning of Rule 12b-2 pursuant to the Securities Exchange Act of 1934 and Rule 405 pursuant to the Securities Act of 1933, in that we currently have nominal operations and nominal assets other than cash. Accordingly, the ability of holders of our common stock to sell their shares may be limited by applicable regulations.

As a result of our classification as a "shell company", our investors are not allowed to rely on the "safe harbor" provisions of Rule 144 promulgated pursuant to the Securities Act of 1933 so as not to be considered underwriters in connection with the sale of our securities until one year from the date that we cease to be a "shell company." Additionally, as a result of our classification as a shell company:

- * Investors should consider shares of our common stock to be significantly risky and illiquid investments
- * We may not register our securities on Form S-8 (an abbreviated form of registration statement)
- * Our ability to attract additional funding to sustain our operations may be limited significantly

We can provide no assurance or guarantee that we will cease to be a "shell company" and, accordingly, we can provide no assurance or guarantee that there will be a liquid market for our shares. Accordingly, investors may not be able to sell our shares and lose their investments in the Company.

RISK FACTORS, PAGE 5

COMMENT: 4

In describing your business in relationship to a risk you sometimes refer to "products" and in at least two instances you refer to translation services. In another risk factor you describe the difficulty of attracting new translators. Based on a review of your proposed business it does not appear that you will be selling any products nor provide any translation services. Please review all your risk factors and revise to ensure that your risk factors are tailored to the services you plan to provide.

Response: We have revised all our risk factors to the services we plan to provide.

WE OPERATE IN A HIGHLY COMPETITIVE ENVIRONMENT, PAGE 6.

COMMENT: 5

This risk factor appears to be generic. Please revise your risk factor to discuss the specific competitive risk to your business as it appears that you will be competing against established internet listing companies like eBay and Craigslist. Please also eliminate your reference to translation services.

Response: We have revised our risk factor to discuss the specific competitive risk to our business. We have eliminated reference to translation services.

MANAGEMENT'S DISCUSSION AND ANALYSIS, PAGE 14

COMMENT: 6

We note your statements here that Marika Inc. is an online job marketplace that connects people or companies in need of professional translation with translators around the world, as well as your reference in the fifth paragraph on page 25 to Translation Group Inc. We note that in other places such as on page 3 and page 19 you describe your business as an errand and concierge service that will connect people in need of the performance of small tasks or errands with agents to perform those tasks. Please tell us your intended business plan. Please update your document throughout, the above examples are not exhaustive, to consistently describe your intended business.

Response: We have updated our document throughout to consistently describe our intended business. We have revised our statements to describe our business plan as follows:

Marika Inc. will be online job marketplace that connect people or companies in need to run errands or small tasks and the persons ("agents") who wish to assist in running those errands or small tasks. Customers will be able to post their tasks on our web site and agents will submit bids for the completion of the work.

COMMENT: 7

This significance to you of your agreement with Superakcijas Company is unclear, even though you have filed this agreement as a material contract. Considering the contract provides no assurances that Superakcijas will provide you with any minimum amount of business, please tell us why you believe this contract is material to you. Please also disclose whether you have retained agents such that you have the ability to act upon the "run errands services" you describe here, as needed.

Response: The contract sets the terms of the business relationship between the two companies. For example it states that Marika Inc. is an independent contractor and not an employee, that Marika will take every precaution to keep the client information confidential, and that Service requests that are dangerous or illegal will not be considered. It states the start date of the service and the termination terms.

We have not retained any agents who will "run errands services". Agents will be able to offer their services and transact with clients through our marketplace website.

In each of the headers in this section, please revise to clarify, if true, that that the amount of time needed is reflected in months following the close of your offering.

TYPE OF ERRANDS, PAGE 16

COMMENT: 9

In the second paragraph under this heading, you refer to the profitability of your operations. Please revise to clarify that even if you have revenues after starting to sell your services, there is no guarantee that you will ever become profitable.

Response: We have revised to clarify that even if we have revenues after starting to sell our services, there is no guarantee that we will ever become profitable.

GOING CONCERN, PAGE 17

COMMENT: 10

Your disclosure in the third paragraph on page 18 indicates that \$66,000 will only last you one year and yet elsewhere, such as on page 15, you indicate that \$25,000 will allow you to "conduct [y]our proposed operations for a minimum period of one year." Please revise to clarify.

Response: We have revised our disclosure on page 18

COMMENT: 11

We note that prior to listing an agent you will perform some background checks on an agent prior to listing the agent. We also note that eBay and Craigslist have been subject to lawsuits concerning criminal and civil disputes in connection to services offered by individuals listing services on their sites. Please revise your business discussion to address this issue. Please also consider adding a risk factor addressing this risk to your business.

Response: We have added discussion and added risk factor.

COMMENT: 12

Please augment you disclosure to discuss the competitive advantages of your services and website versus those of other internet listing companies that customers may access to obtain similar services like eBay and Craigslist.

Response: We have added disclosure to discuss the competitive advantages of our services.

The competitive advantage of our services will be as follows:

1. Our agents who will offer their services will not be anonymous as on the other Internet listing websites. Our feedback system will allow customers to evaluate agent before using their services.

2. Social media Twitter and Facebook Fan Pages will be important feature of our website. Connection with social media will help people find the most desirable services and encourages our future agents to adopt good practices. This also might reduce the risk of scams, schemes, and otherwise unlawful activities which can reflect negatively on our site.

3. Searching Craigslist's homepage or clicking on any of the categories will yield long lists of every relevant post, starting with the most recent. Our future web site will have customizable search options, profile listings based on services or products, and other tools can help make a website feel tailored to personal needs. We will utilize a system that integrates the search process with the contact process. In this way, customers can search for things they need and contact businesses simultaneously.

4. Our future customers will have more piece of mind if using our website. Customers will pay directly to us and we will not pay to agents until we got confirmation from customer that work is done.

It appears that you are attempting to enter a market place that is dominated by established internet service listing companies like eBay and Craigslist. Please revise your disclosure to discuss the specific competitive nature of the market you plan to enter and eliminate your reference to translation service providers as this does appear to be related to your proposed business.
